SAFe Principles

### 3 – Cadence and Synchronization

- All teams on the train work on the same iteration cadence
- Iterations are always the same length
- The ART always operates with the same Program Increment cadence

Are you seeing:

- *Dependencies that are uncoordinated?*
- *No enforced integration and objective evaluation points?*
- *Integration is late; the system is not iterating?*

The Train is not Agile

www.cprime.com · CPRIME · 17

The Goal: Value

Shortest sustainable lead time. Best quality and value to people and society.
High morale, safety, customer delight.

Respect for people and culture	Flow	Innovation	Relentless improvement
• People do all the work • Your customer is whoever consumes your work — Don't overload them — Don't make them wait — Don't force them to do wasteful work — Don't impose wishful thinking • Build long-term partnerships based on trust • Culture change comes last, not first • To change culture, change the organization	• Optimize continuous and sustainable throughput of value • Build in quality; flow depends on it • Understand, exploit, and manage variability • Avoid start-stop-start project delays • Use informed-decision making via fast feedback	• Producers innovate; customers validate • Get out of the office • Provide time and space for creativity • Apply innovation accounting • Pivot without mercy or guilt	• A constant sense of danger • Optimize the whole • Consider facts carefully, then act quickly • Apply Lean tools to identify and address root causes • Reflect at key milestones; identify and address shortcomings

Foundation: Lean-Agile Leadership

Management applies and teaches Lean thinking, bases decisions on this long-term philosophy.
Principles of Lean-Agile Leadership.

Apply Cadence and Synchronization

Cadence
- Transforms unpredictable events into predictable events
- Makes wait times predictable
- Facilitates planning; provides more efficient use of resources

Synchronization
- Synchronization causes multiple events to happen at the same time
- Sync events facilitate cross-functional tradeoffs of people and scope

ART PDCA

Team PDCA

What is an example of applying cadence and synchronization in safe madanswer. Safe what is an example of applying cadence and synchronization in safe. Safe cadence and synchronization help reduce uncertainty. Safe cadence and synchronization help reduce uncertainty and manage what. What is an example of applying cadence and synchronization in safe quizlet.

The software is particularly popular between medical centers, chiropractors, mental health suppliers, podiatrists, physiotherapists and employment, dermatologists, optometrists and plastic surgeons. Telemedicine's features compliant with the HIPAA standard of MendÃ¢â€™s are numerous and include messaging one to one, video conferences, appointment reminders, appointment planning, the possibility of filling outline modules and access to Remote treatment plans. Â, resource links: â€//www.drchrono.com/telehealth/ Organization / carecloudhttps: //doxy.me/https: www.mendfamily.com/Telemedicine-benefits/ More information from symptomfind.com ™ is also ideal for multi-provider practices. Doctors offers flexibility to prevent patients from entering the office when some types of health situations occur. Here there are several secure and high quality telemedicine software companies that suppliers and medical facilities can use to guarantee their patients Ã¢â€™ privacy is protected Ã¢â€ã¢â€"and that you can hear Safe using to connect with your supplier remotely.Dr. Chronophoto [Geber86 / Getty Images] according to Dr. Chrono, which was founded in 2009, the company ranked first in the mobile electronic health records (EHR) from Black Book Rankings and was the EHR software Number one as voted by doctors. Photos kindly granted: [Thana Prassngsin / Getty Images] Thanks to rapid technological developments, many people can now visit their doctors and other health care providers without ever leaving home. Founded in 2014, it integrates with other EHR software and offers advantages like a presence preacher that helps to anticipate the NO-shows or cancellations of appointments. Â ™ is also available Free software, which is used in 136 countries from over 700,000 providers. Appointments can provide direct consultation with a supplier for assistance in the event of Conditions, as well as remote monitoring of vital values for health care such as arterial pressure and heart rate. Its application is compatible with Android and iOS operating systems on mobile devices. The platform complies with the HIPAA, offers a secure connection and guarantees greater privacy at patients and health professionals. Mendphoto Courtesy: [Marko Geber / Getty Images] MendÃ is specialized in providing telehealth services to medium and large studies that have at least 10 suppliers. CarecloudPhoto Courtesy: [Peter Cade / Getty Images] CarecloudÃ, is another award-winning option, compliant HiPaa for telehealth … Its current suppliers represent over 50 specialties. The company is also praised for 24-hour customer support. This software is safe for multiple supplier studies and offers both one-to-one messaging and videoconferencing to help you stay in touch with yours doctor. MEDICIPHOTO Courtesy: [BSIP / Universal Images Group / Getty Images] You can use doctors to contact doctors, nurses, medical assistants and other healthcare professionals, but it is also great for members of the non-medical staff of a studio to put themselves in Contact via text, audio and video. However, due to the sensitive nature of medical information shared during virtual health visits and transmitted via apps and different systems, telemedicine appointments must be safe and compliant with HIPAA, or protect health information in accordance with some legal standards Very specific. Like Dr. Chrono, it is around since 2009, and is awarded as one of the best medical billing programs and 20 Ehr. Those who are thinking of using it can take advantage of a free demo. It also provides practical management and can be used in a medical environment where more suppliers work together, like example in a rural health clinic. company HIPAA-compliant remote care solutions for doctors who use your software. In addition, practical management tasks are integrated into the software. It' also named one of the 20 best software options for mental health providers. Some of CareCloud's telemedicine features include appointment reminders, scheduling, and video conferencing. These types of virtual appointments have become even more popular during COVID-19 pandemic lockdowns and quarantine.Telemedicine enables you to receive routine health care wherever you have a webcam or mobile phone and an internet connection. As the name suggests, whole program Â Ì cloud-based, soÂ¥ any information stored in the program Â Ì accessible anywhere you have access to an internet connection.Doxy.MePhoto Courtesy: [Kilito Chan/Getty Images] If you're looking for simple, HIPAA-compatible basic software, consider Doxy.Me. You can contact your healthcare professionals through a computer or mobile device simply by clicking on a link provided by the doctor's office before an appointment. Its telemedicine platform enables easy scheduling, appointment reminders, a patient portal, e-prescribing, one-to-one messaging and videoconferencing. Some of its features telemedicine includes electronic prescription, one-to-one messaging, video conferencing, remote treatment plans, programming and translation of more than 30 languages. This form of remote medical meeting Â¨ known as telemedicine, and Â¨ one of the fastest growing trends in the medical world.
